KEVIN PALMER

Software Engineer | Cloud Integration Specialist | Backend Architect | Cloud Integration Specialist

📞 +1-(234)-555-1234   @ help@enhancv.com   🔗 linkedin.com   📍 Philadelphia, Pennsylvania

SUMMARY

A passionate and detail-oriented engineer, I specialize in designing scalable backend systems and seamless cloud integrations. With strong expertise in modern backend technologies and cloud platforms, I focus on building efficient, secure, and maintainable solutions. My commitment to quality, through test-driven development and collaborative problem-solving, allows me to deliver high-performance architectures that drive innovation. I approach challenges with creativity, adaptability, and a results-driven mindset.

EXPERIENCE

Junior Developer

Voi Technology

📅 Date period

- Acquired foundational IT knowledge, including core programming concepts, data structures, and algorithms, with a focus on problem-solving techniques.
- Studied and practiced algorithmic thinking, enhancing understanding of search, sorting, and optimization methods, contributing to improved code efficiency and logic flow.
- Gained experience in basic software development principles, including front-end technologies such as HTML, CSS, and JavaScript, as well as the fundamentals of back-end development.
- Strengthened understanding of computational logic and systems through hands-on practice with algorithm design and analysis, focusing on both time and space complexity.

Frontend developer

ChargePoint

📅 03/2019 - Present

- Translated Figma designs into responsive web apps, ensuring pixel-perfect UI/UX.
- Enhanced web app performance, improving load times and accessibility.
- Worked with backend, design, and product teams to deliver features on time.
- Used TDD(Test-Driven Development) to reduce UI-related bugs and maintain code quality.

SKILLS

Frontend Development Skills

HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Vue.js, CSS Preprocessors (SASS, LESS), Responsive Design (Bootstrap, Tailwind, Material UI), WebSockets

Backend Development Skills

Node.js, Express.js, Python, PHP, Django, Flask, Laravel, RESTful API design, GraphQL, Web Socket servers, Authentication (OAuth, JWT, Passport.js), SQL (PostgreSQL, MySQL) and NoSQL (MongoDB, Redis), Server-Side Rendering (SSR) with frameworks like Next.js, Nuxt.js

Cloud Integration & DevOps Skills

AWS, Google Cloud Platform, Microsoft Azure, Docker, Kubernetes, Serverless (AWS Lambda Google Cloud Functions), CI/CD (Jenkins CircleCI GitLab CI)

Testing & Quality Assurance Skills

Unit Testing (Jest Mocha Chai Jasmine)

Version Control & Collaboration

Git, GitHub, GitLab, Bitbucket, Jira, Trello, Asana

Soft Skills

Problem Solving, Analytical Thinking, Communication Skills (Documentation Presentations), Adaptability, Time Management

STRENGTHS

💎 **Backend architecture design**

Expertise in developing robust backend solutions.

💎 **Cloud integration expertise**

Proficiency in integrating cloud services for scalability.

EXPERIENCE

Full Stack Engineer

Saritasa

📅 01/2014 - 05/2016

- Led the full-stack development of web applications using Python, Django, and React, contributing to both the frontend and backend, optimizing user experience and performance.
- Designed and implemented backend architecture, creating scalable APIs and optimizing database interactions, resulting in improved efficiency and data flow.
- Collaborated with cross-functional teams to streamline the development process, ensuring seamless integration between front-end interfaces and back-end systems.
- Gained expertise in implementing best practices in backend workflows, focusing on modular development, code reuse, and efficient resource management.

Senior Developer

Ball Wave Inc (Founded 2015)

📅 Date period   📍 Sendai, Japan

- Optimized development cycles by adopting modern technologies and practices to achieve critical business goals
- Designed and implemented scalable software architectures, ensuring maintainable and efficient code structures.
- Utilized tools like Trello for project management and Git for version control, facilitating seamless team collaboration and workflow optimization.
- Enhanced team efficiency through collaborative development processes, mentoring peers in best practices for software design and delivery.
- Optimized development cycles by adopting modern technologies and practices to achieve critical business goals

Software Engineer

Fair HQ (Founded 2020)

📅 Date period   📍 Berlin, Germany

- Led a team of five developers at Forto, focusing on building scalable web solutions.
- Designed and implemented secure authentication systems using OAuth and integrated modern front-end technologies like Next.js.
- Utilized AWS services including RDS, EC2, and Lambda to build and deploy cloud-based applications, enhancing system scalability and performance.
- Delivered data-driven solutions by leveraging analytical thinking, enabling insights for process optimization and team efficiency.

LANGUAGES

| **English** Native | ●●●●● | **German** Proficient | ●●●●○ |
| **Japanese** Advanced | ●●●○○ | **Thai** Advanced | ●●●○○ |

STRENGTHS

◈ Cross-functional teamwork

Skilled in team collaboration and leadership.

◈ Quality assurance commitment

Advocates for test-driven development for quality code.
